Working Student / Internship – Quality Management and Medical Regulatory Affairs (f/m/d)

Your Tasks:

- **Shaping the future:** Reach milestones with us and assist the head of Quality Management in the day-to-day business for the approval of our medical products
- **Take responsibility:** Leave your footprints in our start-up, support the quality management in the development and maintenance of our quality management system and be responsible for technical documentation
- **Participate in decision-making:** Coordinate own sub-projects, perform research and data analysis and create presentations for decision preparation
- **Reliable realization:** Be responsible for the collection and maintenance of sensitive patient data and support us with technical documentation
- **Live our team spirit:** Be the link between our software developers and our Quality Management

Your Profile:

- **Education:** You are a registered student of medical technology, engineering or natural sciences, ideally biomedical engineering with a focus on computer science or comparable qualification
- **You would like to work with us as a compulsory intern or working student**
- **Experience and know-how:** Confident handling of MS-Office; ideally, you have initial knowledge of software programming and first experience in ERP/PM systems (e.g. Jira) through comparable activities in quality management
- **Languages:** Fluent English and German language skills
- **Personality, way of working and interests:** You are a team player with strong communication skills and a proactive and reliable way of working, you have a high IT affinity and are interested in (VR) software and quality-related topics

**Immersive instead of Invasive**

We are looking for motivated employees for our Start-Up **CUREosity** based in **Düsseldorf**. Be part of a unique cooperation of scientists, physicians, therapists and game designers. Together we develop a completely new motion therapy system based on VR technology with the goal to help people with neurological and psychological impairments.

Grow with us right from the start and join **CUREosity** by applying at **jobs@cureosity.de**!
